

“Risk Reduction in Nuclear Disasters through Citizens' Participation”

The Public Forum of The 3rd UN World Conference on Disaster Risk Reduction

The Third UN World Conference on Disaster Risk Reduction will be held from 14 to 18 March 2015 in Sendai City, Miyagi Prefecture, Japan. Several thousand participants are expected at the World Conference to discuss international strategy for disaster risk reduction. The Public Forum Side Events, Exhibitions and Poster Sessions, are a significant part of the World Conference. Government organizations, municipalities, NPOs, NGOs, Universities, local organizations and CSOs share their knowledge and experience of reducing risk and building resilience. “Risk reduction in nuclear disasters through citizens' participation” is an event to introduce and discuss the prevention and risk reduction in nuclear disaster. You are cordially invited to our event.

Outline :	This event will introduce civil society initiatives around the world and in Fukushima for risk reduction in nuclear disasters. It will provide a place for diverse actors to share their knowledge and experience in order to learn about and explore mechanisms for participation in disaster risk and reduction.
